

Lite-Mite Forged Aluminum Pipe Wrenches

Housing and hook made of forged aluminum alloy to provide lightness and ease of handling. Heeljaw and hookjaw both replaceable, made of high alloy steel and heat treated to give extreme hardness and toughness to both jaws.

Adjusting nut made of steel alloy possesses extreme hardness, strains equally distributed on threads. Nut is easy to get hold of and spins easily.

Hook is supported by spring to cause floating action, guarantees instant grip and let go.

Size In.	Com- plete Each	Handle Each	Hook Each	Jaws Each	Screws Each	Spring Each	Nut Each	Capa- city In.	Wt. Lb.
10	\$4.95	\$2.95	\$1.85	\$.65	\$.05	\$.52	\$.45	1 1/2	15/16
